> Ropella Industry Expertise

The fluoride industry is one of the unsung heroes of modern society. It serves as a topical and systemic therapy for preventing tooth decay, it is vital to the production of steel and aluminum. It is a key component of refrigerant gases. It plays a role in the production of rain-wear and other durable water repellent fabrics, non-stick cookware, and electrical insulation. Someday soon, it is likely to be a key component of invisibility technologies.

Ropella 360's mission is to build lasting relationships between high-potential a-player talent, backable executives, board members, SMEs and transformational leaders. Our primary goal; providing ROI value towards growing the great companies we invest our time, talent and treasure into.

Building teams worldwide, in all functional areas and at all levels, with the best possible talent is one of the highest priorities for transformational leaders – because we all know – **the team with the best talent wins**. Especially so, in fast growing organizations.
