> Ropella Industry Expertise

Although glass is a well-established product in our society, additives enable manufacturers to develop innovative new products, improve attributes, and shave costs. From base materials like silica and calcium oxide to quality enhancers like boron and lanthanum oxide to coloring agents like iron oxide, chromium, and even uranium, glass additives help to boost thermal, mechanical, optical, and other properties that give glass itself such great versatility and durability.

Ropella 360's mission is to build lasting relationships between high-potential a-player talent, backable executives, board members, SMEs and transformational leaders. Our primary goal; providing ROI value towards growing the great companies we invest our time, talent and treasure into.

Building teams worldwide, in all functional areas and at all levels, with the best possible talent is one of the highest priorities for transformational leaders – because we all know – **the team with the best talent wins**. Especially so, in fast growing organizations.
