## Ropella Industry Expertise

The primary concern of the filtration industry is to minimize safety concerns while quickly and thoroughly removing unwanted constituents from solutions. It is a vital component of a diverse array of industries, from pharmaceutical to automotive to water reclamation. Filtration companies must be able to help clients recycle materials, cut energy and other operating costs, meet stringent rules on discharges, and, of course, increase final product purity.

Ropella 360's mission is to build lasting relationships between high-potential a-player talent, backable executives, board members, SMEs and transformational leaders. Our primary goal; providing ROI value towards growing the great companies we invest our time, talent and treasure into.

Building teams worldwide, in all functional areas and at all levels, with the best possible talent is one of the highest priorities for transformational leaders – because we all know – **the team with the best talent wins**. Especially so, in fast growing organizations.

## Our Solutions

With over 35 years as a global search leader, delivering the most advanced search execution capabilities, Ropella 360 has proven many times over, to be extremely well-versed at solving the most challenging "needle in a haystack" searches. While at the same time managing talent selection and development as a primary asset for ROI.

SM As a bestselling author of The Right Hire and a highly experienced practitioner, Patrick Ropella developed the SMART Search System<sup>SM</sup>, regarded as one of the most well respected, Talent Centric Executive Search Solutions available.
