## > Ropella Industry Expertise

Medical plastics have already dramatically transformed the healthcare industry in recent decades, and we can easily foresee this trend continuing in the future. Researchers are working on innovative breakthroughs such as plastic skin patches that regulate chronic disease management and bioresorbable plastic heart stents. Innovative science and technology continues to expand medical plastics' growing role in healthcare — prosthetics, surgical gloves, machinery, artificial corneas, hearing aids, time-release pill capsules, and much more.

Ropella 360's mission is to build lasting relationships between high-potential a-player talent, backable executives, board members, SMEs and transformational leaders. Our primary goal; providing ROI value towards growing the great companies we invest our time, talent and treasure into.

Building teams worldwide, in all functional areas and at all levels, with the best possible talent is one of the highest priorities for transformational leaders – because we all know – **the team with the best talent wins**. Especially so, in fast growing organizations.
