> Ropella Industry Expertise

Although nuclear energy has seen its share of fluctuation since it was first harnessed in the 1950s, we are currently in a “nuclear renaissance” as countries worldwide look to new nuclear power plants to boost their clean energy generation. Offering the lowest total life-cycle emission intensity compared to all other commercial base load energy sources, nuclear energy is currently the second-largest source worldwide of low-carbon electricity.

Ropella 360's mission is to build lasting relationships between high-potential a-player talent, backable executives, board members, SMEs and transformational leaders. Our primary goal; providing ROI value towards growing the great companies we invest our time, talent and treasure into.

Building teams worldwide, in all functional areas and at all levels, with the best possible talent is one of the highest priorities for transformational leaders – because we all know – **the team with the best talent wins**. Especially so, in fast growing organizations.
