## > Ropella Industry Expertise

Color creation, mixing, milling, blending, and curling are among the many processes involved in manufacturing paints and coatings. Architectural paints and coatings, which maintain structural surfaces, are the largest segment of this industry — and about half of this segment is ruled by do-it-yourself end users. The industry is continuing its search for cost-efficient ways to cut toxicity and waste while developing new techniques such as hydrophobic coatings and improving surface tack.

Ropella 360's mission is to build lasting relationships between high-potential a-player talent, backable executives, board members, SMEs and transformational leaders. Our primary goal; providing ROI value towards growing the great companies we invest our time, talent and treasure into.

Building teams worldwide, in all functional areas and at all levels, with the best possible talent is one of the highest priorities for transformational leaders – because we all know – **the team with the best talent wins**. Especially so, in fast growing organizations.
