> Ropella Industry Expertise

One of the largest manufacturing industries in the United States, plastics manufacturers have been a driving force of the country's economic recovery. While other segments of the manufacturing industry decline, plastics continue to increase. There are thousands of facilities across the country, and these facilities can be found in all fifty states. As an ever-evolving industry, companies must have their eyes on recent advances in science and technology. More importantly, they must strive to contribute to these advances.

Ropella 360's mission is to build lasting relationships between high-potential a-player talent, backable executives, board members, SMEs and transformational leaders. Our primary goal; providing ROI value towards growing the great companies we invest our time, talent and treasure into.

Building teams worldwide, in all functional areas and at all levels, with the best possible talent is one of the highest priorities for transformational leaders – because we all know – **the team with the best talent wins**. Especially so, in fast growing organizations.

> Our Solutions

With over 35 years as a global search leader, delivering the most advanced search execution capabilities, Ropella 360 has proven many times over, to be extremely well-versed at solving the most challenging “needle in a haystack” searches. While at the same time managing talent selection and development as a primary asset for ROI.

SMARTSM
Search System
