> Ropella Industry Expertise

Polypropylene, the second-most widely produced plastic, is preferred for a wide variety of industrial settings and consumer goods due to its ability to withstand repeated stress. Most plastic living hinges — the sort of flip-tops often found on shampoo and ketchup bottles — are made of polypropylene. The most common end use for this versatile material is in packaging, not just in these tops, but also in microwave- and dishwasher-safe reusable food containers.

Ropella 360's mission is to build lasting relationships between high-potential a-player talent, backable executives, board members, SMEs and transformational leaders. Our primary goal; providing ROI value towards growing the great companies we invest our time, talent and treasure into.

Building teams worldwide, in all functional areas and at all levels, with the best possible talent is one of the highest priorities for transformational leaders – because we all know – **the team with the best talent wins**. Especially so, in fast growing organizations.

> Our Solutions

With over 35 years as a global search leader, delivering the most advanced search execution capabilities, Ropella 360 has proven many times over, to be extremely well-versed at solving the most challenging “needle in a haystack” searches. While at the same time managing talent selection and development as a primary asset for ROI.

SMARTSM
Search System
Recruit smarter. Not harder.

As a bestselling author of The Right Hire and a highly experienced practitioner, Patrick Ropella developed the SMART Search SystemSM, regarded as one of the most well respected, Talent Centric Executive Search Solutions available.
