> Ropella Industry Expertise

Silicones and sealants feed into virtually every industry, from pharmaceuticals and cosmetics to construction and transportation to bakeware and electronics. Our children encounter silicone in baby bottle nipples and Silly Putty; hospitals use them in prosthetics, bandages, and medical devices; at home, they can be found in plumbing, aquariums, and conditioner. Silicone's minimal impact on health and the environment has been a major driver of growth in this industry.

Ropella 360's mission is to build lasting relationships between high-potential a-player talent, backable executives, board members, SMEs and transformational leaders. Our primary goal; providing ROI value towards growing the great companies we invest our time, talent and treasure into.

Building teams worldwide, in all functional areas and at all levels, with the best possible talent is one of the highest priorities for transformational leaders – because we all know – **the team with the best talent wins**. Especially so, in fast growing organizations.
