> Ropella Industry Expertise

The amount of solar installations has been setting records as costs continue to decline and efficiency and manufacturing technologies continue to improve. In addition to growing concern about sustainable energy sources — of which solar energy is the cleanest and most abundant — this growth is propelled by rising fossil fuel costs (and dwindling supplies), stringent energy policies, financial incentives, and new materials and processes that continue to boost economical and environmental benefits.

Ropella 360's mission is to build lasting relationships between high-potential a-player talent, backable executives, board members, SMEs and transformational leaders. Our primary goal; providing ROI value towards growing the great companies we invest our time, talent and treasure into.

Building teams worldwide, in all functional areas and at all levels, with the best possible talent is one of the highest priorities for transformational leaders – because we all know – **the team with the best talent wins**. Especially so, in fast growing organizations.

> Our Solutions

With over 35 years as a global search leader, delivering the most advanced search execution capabilities, Ropella 360 has proven many times over, to be extremely well-versed at solving the most challenging “needle in a haystack” searches. While at the same time managing talent selection and development as a primary asset for ROI.

SMARTSM
Search System
Recruit smarter. Not harder.
