> Ropella Industry Expertise

In most industries, sales and marketing teams' work revolves around the products devised by research and development teams. Within specialty chemical companies, however, these roles are often reversed, with sales professionals generating the customer requests that ultimately drive the research and development processes. Companies and employees in this industry must be flexible and solution-oriented, innovative and entrepreneurial. The industry is a costly one to break in to, but brings with it not just financial rewards, but personal ones as well — from contributing to evolving eco-friendly practices to the satisfaction of providing customers with individualized solutions.

Ropella 360's mission is to build lasting relationships between high-potential a-player talent, backable executives, board members, SMEs and transformational leaders. Our primary goal; providing ROI value towards growing the great companies we invest our time, talent and treasure into.

Building teams worldwide, in all functional areas and at all levels, with the best possible talent is one of the highest priorities for transformational leaders – because we all know – **the team with the best talent wins**. Especially so, in fast growing organizations.

> Our Solutions

With over 35 years as a global search leader, delivering the most advanced search execution capabilities, Ropella 360 has proven many times over, to be extremely well-versed at solving the most challenging “needle in a haystack” searches. While at the same time managing talent selection and development as a primary asset for ROI.

SMARTSM
Search System
